Intelligence from Tobasco.

The schooner Sarah, Captain Eldridge, arrived esterday from Tobasco, whence she sailed on ne 25th ult.

We learn from Capt. E. that when he sailed it was daily expected that a revolution would break out in favor of Santa Anna.

The order of the government to seize all the merican vessels in port, was hourly looked for hen the S. sailed. It has since been received. The Yucatan schooner which had been capturby our squadron, and released in respect to

A Yucatan flag, had arrived at Tobasco. One of the supposed ringleaders of the revoluon had been taken and thrown into prison.

The Louisville Courier, in speaking of Gen. Taylor, anys:—"He was raised and educated in this county, and always has considered it, and regards it as his home. His father, Colonel Richard Taylor, was an officer in the bid Continental army, and died at his residence near this city about ten years since. He was an elector in this district for Jefferson, Madison, Monroe, and for Henry Clay the first time he was a candidate for the Presidency. General Taylor at present owns several valuable houses and lots on Wall street, in this city. He also owns a large plantation in Mississippi, and a smaller one in Louisiana."

The birth-place of General Taylor has become a subject of some doubt. Virginia and Kentucky have disputed for the honor of his birth; and in Virginia three counties have claimed him—Caroline, Amherst, and Orange. We under "and from the best authority, that the county of Orange, in Virginia, is entitled to the distinction. Gen. Wool is to command the cavalry companies to rendezvous at Memphis. They are to proceed to Fulton, Arkansas, lying on Red river, and from thence, with an army of 4000 mounted men, they march to Chihushua, Mexico, one of the Mexican States, bordering Texas on the west, and separated from Texas by the Rio Grande del Norte. Chihushua is bounded north by California, and lies about 400 miles west of San Antonio, Texas, through which town the forces pass. The troops, we suppose, are destined first to the city of Chihushua, and thence north to California, some 300 miles distant to nearest point—making the entire distance from Memphis to California some 1500 miles.—Memphis Eagle.

Police Intelligence.

Extensive Robbery.—A young Jew by the name of George Simmons was arrested yesterday on a charge of stealing near \$2000, consisting of gold and bank bills, belonging to his employer. Mr. Henry Cardosa, No. 13 Chatham street. The suspicion against this young man is occasioned from the fact of his remaining an unusual length of time at his breaktast. In this room, a bureau drawer was broken open, apparently with a screw driver, and a small box taken therefrom, containing the above amount of money. Upon the robbery being discovered, and search being made on the premises, the box was found in the coal shed in the yard broken open, and the gold and bank bills stolen, leaving in the box only about \$60 in silver and a check. They having at the time a savage dog in the yard, he would undoubtedly have given an alarm; besides a Mrs. Fullerman saw the accused come from the coal shed some little time previous to the discovery of the robbery. Committed by Justice Osborne for examination.

Grand Larceny—Officer Lown, of the third ward, arrested, yesterday, a man called Samuel Boyce, for stealing a trunk containing female wearing apparel valued at \$50, belonging to Mrs. Margaret Oliver. It appears this rascal took the trunk from Chamberlin's Hotel, in Robinsen streat, under pretence of taking it to the residence of Mrs. Oliver; instead of which he took it to his own place in William street, where he was di-covered by the above vigilast officer.—Committed for trial by Justice Osborn.

Stealing Copper—A man called Eff Walder was arrested last night on a charge of stealing about thirly feet of copper pipe, valued at \$5. belonging to Jacob Raynor, No. 56 Luddew street.—Locked up for trial.

Petit Larceny —Thomas Hurley was arrested for stealing \$175, belonging to Jacob Raynor, No. 56 Luddew street.—Locked up for trial.

Bragdon, THE BIGAMIST, ACCUSED OF MURDER.—It is known that this fellow has married five women. The first is dead. The second is Lucy Ann Jones, of New Castle, Maine.—Ithid, was a resident of Boston—fourth, of Mansfield, Mass.—fifth, of New York. One of the women, who confronted this Turk, was Lucy Ann Jones. There was evidently on the trial no very kind feelings existing between Lucy and her false huzband. She has made to officer Whipple, of Boston, some important disclosures. She says that Bragdon came to this city with her in October, 1843—the being on her way to see her friends at New Castle. That about nine o'clock in the evening, of the 11th, having been visiting some friends in India street, they passed over to the rail road depot. Bragdon entered a little shop near, and killed a man therein, by striking him on the head with a weepon—rified him of ten or twelve dollars in change! This was the evening on which Col Henly was murdered! He put her on board the Bath steamboat, and he went westward. She had not seen him since, till she saw him on trial. Officer Whipple was in this city yesterday, looking up evidence in the case. He found the family in India street, whom Lucy and Bragdon visited. They well recollected the visit, and the time of their leaving the house on the night Col. He was murdered. A barber also recollects having shaved Bragdon the next morning, when he paid him out of a pocket full of change. If we recollect rightly, Bragdon was at the time suspected of the crime, and the others were in search for him several days. It is stated that he hails from Scarboro', Maine—Pertland Argus.

Sudden Changes.—There is nothing more trying to the human constitution than sudden changes of stmosphere. Heat rarifies the blood, quickens the circulation and increases the perspiration, but when suddenly checked, those humors which should pass off by the skin are thrown off inwardly, causing coughs, colds, consumption, difficulty of breathing, watery and infamed eyes, sore throat, fevers, rheumatic pains in various parts of the body, and many other complaints, the usual symptoms of catching cold.

Wright's Indian Vegetable Pills are a delightful medicine for carrying off a cold—because they expel from the body those humors which are the cause not only of the above complaints, but of every malady under heaven. Four or five said Indian Vegetable Pills taken every night on going to bed will, in a few days, carry off the most obstinate cold; at the same time the digestive organs will be restored to a healthy tone, and the blood so completely purified, that new life and vigor will be given to the whole frame.

Cattrion.—It should be resmembered that Mr. Samuel Reed, of Baltimore: Mr. John Dixon, of Easton, Pa., and Messra. Browning & Brothers, of Philadelphia, are not agents of ours, and as they purchase no Wright's Indian Vegetable Pills at our office, we cannot guaranty as genuine any medicine that they may have for sale.

Friday, June 19\_6 P. M. There was a general improvement in prices to-day, without transactions to any great extent. Pennsylvania 6's went up \( \frac{1}{2}\) per cent: Reading Railroad Bonds, \( \frac{1}{2}\); Farmers' Loan, \( \frac{1}{2}\); Morris Canal, \( \frac{1}{2}\); Canton, \( \frac{1}{2}\); Long Island, \( \frac{1}{2}\); Harlem, \( \frac{1}{2}\); Norwich and Worcester, \( \frac{1}{2}\); Reading Railroad \( \frac{3}{2}\).

At the second board prices were firm, with very moderate sales. It is the general impression in that street that there must be within the next thirty or sixty days, a very great speculative movement in stocks, and consequently an advance in prices of fifteen or twenty per cent in some of the fancies. We cannot but coincide with this opinion, as we see nothing in the political or comwith mercial world, likely to prevent very prosperous and very easy times. As soon as things get settled down upon the present basis, and they get once more regulated, we may expect much better times than we have had within the past two years.

The officers of the Canal Bank of Lockport, one of the institutions of that place, which has recently stopped payment, have issued the following card to the public:—

At a meeting of the directors of the Canal Bank of Lockport, held at the banking house in the Village of Lockport, this 15th day of June, 1846, the following prembles and resolution were unanimously adopted:—

Whereas, from various causes and casualties, this bank has become embarrassed, and whereas, farther efforts to sustain its credit, or meet its engagements, at this time, would, in the opinion of this board, be fruitless, and tend to the prejudice of the creditors of the bank, therefore, Resolved, That this bank suspend payment for the present, and until the farther order of this beard.

A true copy from the minutes

O. BALLARD, Assistant Cash'r.

The directors confidently believe that the bank has abundant assets to meet all its engagements to the public, if moderate time be allowed; and they hope that the creditors of the bank will make no sacrifices of their claims, but patiently await the result of measures already commenced, to resume business within the time allowed by law, or the speedy winding up of the affairs of the institution.

The arrival of the steamship Caledonia at Boston from

f the institution.

The arrival of the steamship Caledonia at Boston from Liverpool, gives us advices from all parts of Europe five days later than those received by the Great Western. The news both politically and commercial, is highly faence upon the principal money markets of Europe, in consequence of the immense interest the capitalists of England, France and Holland have in Mexico; but when the steamer left, the depression was slowly wearing away. Upon the announcement that the Government of Great Britain contemplated offering its mediation, for the settlement of the difficulties between the United States settlement of the difficulties between the United States and Mexico, an improvement was clearly visible, and we have no doubt the advices by the steamer of the 19th inst.—which leaves Liverpool to-day—will be of the most favorable character, in regard to this matter. All negociations for a new Mexican loan had ceased, and a decline in the old bonds had been experienced.

The Liverpool cotton market had slightly improved, prices were firm; with an upward tendency, and the sales were to some extent to the trade. The improvement is principally attributed to the state of our affairs with Mexico; but we have no doubt that the accounts which from time to time reach Liverpool from this and our Southern markets, in relation to the extent of the

our Southern markets, in relation to the extent of the crop now coming to the Southern seaport depots, have had a very great effect in sustaining prices and stiffening the market. The fact that the present crop will be at least three hundred and fifty thousand bales less than that of last year, could not possibly have had a contrary effect. All the produce markets of Great Britain were, under existing circumstances, in a very encouraging condition, notwithstanding the unsettled state of prices, growing out of the uncertainty which for a time surrounded the corn bili. The slight decline in prices, was, without doubt, caused by the doubt many interested entertained, in relation to the operation of the new bill.

The New Orleans money market has recently improved. It is stated that the offerings at the banks had mate-

had pursued a more liberal policy, relieving as far as they could the demands upon them for discounts. The they could the demands upon them for discounts. The government and the northern banks are heavily indebted to the banks of New Orleans, and the regulation or equalization of exchanges, would relieve the money market of New Orleans very much. A movement in produce to any extent, would remove much of the existing embarrassment among the commercial classes, but the season is unfavorable for any permanent improvement of that nature, and we cannot anticipate any immediate relief of any consequence.

that nature, and we cannot anicopally all is of any consequence.

The government will require large amounts of specie to carry on the war with Mexico; and the demand and drain must, to a certain extent, fall upon the banks of New Orleans. The banks of that city have nearly seven millions of specie, an amount about equal to that held by the banks of this city. Any government draft on any deposite bank of this city, in favor of any bank in New Orleans, must be paid in specie. It has nothing to do

specie draft on the Merchants' Bank of Boston, in favor of the Canal and Banking Company of New Orleans, for two hundred thousand dollars. The Merchants' Bank of Boston, not wishing to part with that amount of specie, Boston, not wishing to part with that amount of specie, if possible to prevent it, placed an amount corresponding with the amount of the draft to the credit of the Canal Bank, in the Phenix Bank, of this city, that bank being a creditor bank to the Canal Bank of New Orleans, and gave them notice to that effect, forwarding, at the same time, the certificate of deposite. Upon receipt of the notice and certificate, the Merchants Bank of Boston was informed that the Secretary of the Treasury required the payment of the government drafts in specie; and that these drafts had nothing to do with any balance the Phenix Bank of New York might have sgainst them, and returned the certificate of deposite on against them, and returned the certificate of deposite on the Phenix Bank to the cashier of the Merchants' Bank, requesting him to draw the funds he had placed in that institution, and forward them to New Orleans in specie, which was accordingly done. It thus appears that Treasury drafts requiring a transfer of specie from one point to another, must be carried out independent of any balance, or anything else existing between the banks in their regular business.
